Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 36 is rejected under 35 U.S.C. 102(e) as being anticipated by Kammerer et al (2002/0077526). The applicant's attention is invited to Figure 3a and Figure 4. The examiner is taking element -112- as a dilator and the method is set forth in figure 4 and the related written description. The examiner is taking the position that the applicant does not have support for the embodiment as claimed in claims 36-39 prior to the filing date 7/27/2001 of US patent application 10/005,837. The filing date for Kammerer et al is 6/4/2001. The dilator element -112- is tapered as shown in figures 3A and 3D.

Response to Arguments

Applicant's arguments filed 12/18/2006 have been fully considered but they are not persuasive. Regarding Kammerer and the applicant's provisional 60/295,068, the applicant points to paragraphs 0157 through 0166 and paragraph 0142 to provide support for the claimed invention. After reviewing the recited paragraphs it is the

Art Unit: 3735

examiner's position that the provisional application does not provide support for "providing a surgical kit" including a first type of needle and a second type of needle where the first type of needle is different than the second type of needle.

The method as set forth requires the use of two needles but they are disclosed as being the same type of needle. While paragraph 0142 sets forth other types of needles may be used, a kit containing two different types of needles is not set forth. It is the examiner's position that only a kit containing two of the same types of needles would be taught by the provisional application.

Allowable Subject Matter

Claims 1, 3, 4, 6-14 and 37-43 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or fairly suggest the first or second needle including "means for transporting said implantable sling material and dilator". The examiner is taking the claim to invoke 112 6th paragraph.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3735

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel G. Gilbert whose telephone number is 571-272-4725. The examiner can normally be reached on Monday-Friday 6:30-4:00.
